TIMBONÄS

## To Lake Abborttjärnet

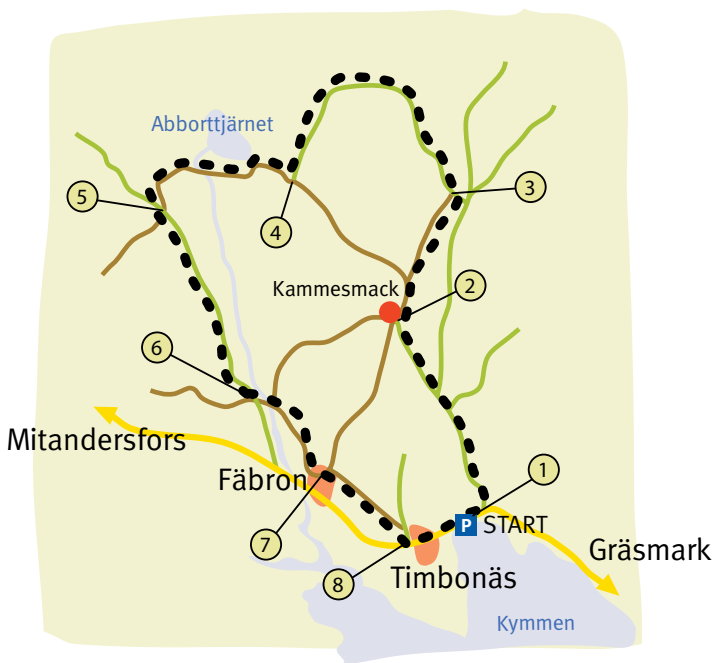

### GETTING THERE

From the 45 (the main road through Värmland) you take the exit Gräsmark. Continue until in Gräsmark and follow the signs Torsby from there. At the exit Torsby you head into the direction of Mitandersfors. After 10,9 km you will pass the sign Timbonäs. After 400 metres you will see a car park, left off the road by the lakeside and near the road signs 'Kammesmack' and 'Honkamack'. You can park your car here.

21

### WHY?

In this part of Värmland you will find a maze of short, badly kept footpaths. For this walk we have connected several of these footpaths which together form a complete tour. The paths are not always in a good state or well-marked. This is sometimes inconvenient, but it also gives you the feeling that you are the only one making use of them, together with the many moose that live here. Lake Abborttjärnet is a beautiful oasis which you can enjoy in silence. Lake Kymmen, where the walk begins and ends, is excellent for a picnic and a swim, providing the weather is good.

### THE WALK

Walk away from the car park **(GPS1)** in the direction of the asphalt road which you cross straight ahead, in the direction of Kammesmakk. Follow the gravel road for 700 metres. When you reach a couple of letterboxes you take the exit to the left. On your right you will see an orange road sign 'Kammesmakk'. After 400 metres you will see on your right a small information sign **(GPS2)**. This is where an overgrown grass path begins. Continue along the grass path and keep the shed to your left. The path is marked with orange paint. After 300 metres you will cross a gravel path and further on, near the signpost 'Honkamack 1800 m', you turn right. Walk into the pine forest. Further on, you ignore a path to the left. Follow the path that descends straight ahead. Ignore side-paths and follow the orange marking. You will reach a gravel road **(GPS3)** and turn left. Continue along this road for 1.8 km, towards the end. At about 100 metres before you reach the end of the road you take the path that descends to the right **(GPS4)**. This path is also marked with orange paint. The path is overgrown, but further on you can see the marking again. Cross the small brook via the jetty. You will now see Lake Abbortjärnet.

Keep to the right. The path reaches a small bridge across the brook. Cross this bridge and continue following the markings until you reach a crossing with a broader grass path. Turn left here. You will reach a broad gravel road (**GPS5**). Turn left here and follow the road for 1.2 km. You will then reach a house. Just past the house the road sign with orange marking (**GPS6**) will send you left towards the river. Cross the river via the bridge. On the other side you go immediately to the right, in the direction of Fäbron. After 50 metres you go straight ahead and up via a narrow path. A little further on you will have excellent view of the river. Near a wooden shed, the path bends to the left and reaches a house and some sheds. Turn left here, walking along the edge of the forest. Keep the buildings on your right. Near the last shed you will reach an overgrown grass path with the road sign 'Kvarna 500 m' (**GPS7**). Turn left here and follow the grass path. For the first part you will walk parallel to the electricity cables. The grass path reaches a gravel road. Turn right here, and turn left after 30 metres at the asphalt road (**GPS8**). After 500 metres you can see the car park near the lake where your car is parked (**GPS1**).
